1.0	10 April 2021	KLAC Committee	Replaces KLAC Smoking and vaping policy – last update unknown.

## General

The Kingsway LAC understands the harmful effects of smoking on health, fitness and performance in sport and as a result has adopted the following policy:

- ATHLETES are reminded that smoking adversely affects performance.
- COACHES AND OFFICIALS are reminded that they are role models for junior athletes and are asked to refrain from smoking in front of athletes and in line with all other points whilst associated with the sport.
- PREMISES and competition areas at Kingsway are declared smoke free zones. Smoking is permitted 50m outside of the complex (outer fencing), well away from all sites. If you are wearing a Kingsway or club shirt be mindful of surroundings and those around you as to continue being a positive role model for athletes.
- SPECTATORS are reminded that smoking is considered to be inappropriate in a sporting environment and are urged to respect our policy on tobacco & vaping products.
